

Vitaliy Ivantsiv

Born 1997, single

Junior JavaScript Engineer

Summary

During my university studies, I got acquainted with the basic principles of software development. I have learned principles of OOP programming in C# and JavaScript languages. Also, I've paid attention to software modeling, operating systems, networking, discrete mathematics, databases, etc. I'm result oriented, open for new challenges and ready to show the best out of my current experience and also to acquire new knowledge.

Currently, I am working at Edvantis Software, Inc. as a Junior JavaScript Engineer.
